***Response to Amendment***

This office action is in response to an amendment filed on August 27, 2007.

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1 & 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Dixon (U.S. Patent number 5515506).

3. As per claim 1, Dixon discloses error detection component to control the detection of errors in information stored in a processor resource between stores of new information in the processor resource (col. 2, lines 15-17, 19-21). Dixon also discloses a comparison component coupled to the error detection component, the comparison component to receive the information from the processor resource, to determine whether the information is valid (col. 2, lines 22-28), and to output a signal to indicate an error condition if the information is invalid (col. 2, lines 29-33).

4. As per claim 2, Dixon discloses that the error detection component comprises an error detection state machine to output a next-entry-to read-out signal and a parity bit signal (col2, lines 28-34, Fig. 2).

***Allowable Subject Matter***

5. Claims 11-22 are allowed.

6. Claims 3-10 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

7. Applicant's arguments with respect to claims 1-22 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
